

TESTIMONIALS.

Dear Mervyn and Christine,

thank you so much for organising this course with Dr Ramakrishnan!
Apart from all the knowledge this is also what I loved about the course...

1. beautiful setting! please keep it in Aberystwyth and on the sea front. Its a long drive for many, 5.5 hours for me, but the 2 hours or so through Wales makes up for the drudgery of the motorway! And so lovely being by the sea.. (I live in a town.)

2. really good as usual to meet other homeopaths-looking forward to getting to know more of those present as the modules progress. Loved the relaxed tea breaks-no rush as with Society events and others I've been on... "20 minutes only!!!," or similar I've encountered . A big part of the course is time to talk about what we are learning, sharing info getting to know new people, feeling supported-so well done for the relaxed feeling. Amanda from Hertfordshire.

hi mervyn

thank you for organising such a wonderful seminar and really taking care of us, and thanks to your wife too of course. Do you know how I could get the course notes? I am sure Dr Ram talked about this on the first day, but first day a bit hazy, having been jet-lagged and train-lagged, thank you x Niloofar From Qatar

Dear Mervyn,

I really enjoyed module 1 and I want to thank the Welsh conference for bringing Dr. Rama. It was a superp learning experience and I enjoyed the camaraderie of the other delegates.
Could you please forward me Dr.Rama' email as I want to communicate with him. In the meantime I await the arrival of the lecture notes. God bless you both and I pray that he keeps u in peace and in health til we meet again.
LOVE. Dr Duodu From Yorkshire.

Dear Mervyn,

Thanks for inviting me. The next day after my return I got a patient with epilepsy to use my new knowledge. Daiva From, Lithuania.

Dear Mervyn,

Just a few lines to thank you for last w/e's course. I really enjoyed it and I thought Ram was excellent. I find he has a very single minded approach but that it doesn't really detract from his obvious wealth of learning and experience. I very much hope to be able to attend the next module in October. I would also like to attend the conference but wanted to ask whether you have booked your speakers for the day. Hedydd From Welshpool.
